Cut list and numbers

Page 5 of 5

1962 Roman Breviary, single volume - boxed zippered pouch

BOOK

height (spine) 8.5 in
width (cover) 6 in
depth (thickness) 2.25 in

EASE ADDED

around the length 3/16 in
at the opening 1/2 in
around the thickness 1/4 in

FINISHED POUCH, INSIDE

width 8 11/16 in
height 6 1/2 in
depth 2 1/2 in

CUT LIST

seam allowance 1/2 in on every seam
panel 12 3/16 in wide x 8 3/4 in tall
cut 2 from outer fabric
cut 2 from lining fabric
grain runs parallel to the height
corner squares 1 3/4 in square, one at each bottom corner
(8 squares total, 2 per panel)
turning gap 5 in, centred on the bottom edge
of ONE lining panel only

NOTIONS

zipper 16 in nylon coil, size #4.5 or #5
panel is 12 3/16 in wide, so the zipper
overhangs by 1 7/8 in at each end
thread all-purpose polyester, 1 spool

FABRIC TO BUY (58 in wide, prewashed allowance included)

outer, 10 oz duck 0.50 yd
lining, quilting cotton 0.50 yd

ARITHMETIC CHECK

$D = 2 \cdot S - 2 \cdot SA = 2 \cdot 1.75 - 2 \cdot 0.5 = 2.5$
 $W_f = W_{cut} - 2 \cdot SA - D = 12.2 - 1 - 2.5 = 8.7$
 $H_f = H_{cut} - 2 \cdot SA - D/2 = 8.75 - 1 - 1.25 = 6.5$
bottom seam $W_{cut} - 2 \cdot SA = 11.2$, and $W_f + D = 11.2$
note: turning gap clears each corner square by 1 7/8 in on the bottom seam
